

Get connected to New Jersey and National Information about the American Recovery and Reinvestment Act with these websites

As part of the New Jersey 2009 Recovery and Reinvestment Plan, state government staff has developed a website intended to provide NJ-specific information about the implementation of the ARRA in New Jersey (<http://www.state.nj.us/recovery/faq/>).

The New Jersey site includes information on grants and eligibility criteria for planning and construction projects. As additional information becomes available, this site will be updated.

In some cases, programs and proposals included in earlier versions of the House and Senate ARRA bills were dramatically changed as the bill was finalized. You may have read about proposed provisions that were not included in the final bill or were significantly altered. In some cases, details are not yet available for some of the funding opportunities included in the ARRA. To stay abreast of the newest developments, please continue to check this website periodically as well as the federal website, www.recovery.gov for more information.
